## APPENDIX.

PROSPECTUS OF THE BOOK, AND A VARIETY OF ADVERTISEMENTS. . . . .	269
--	-----

## OBSERVE,

The word "Mr" placed before the name of any Tradesman, as Grocer, Haberdasher, &c. indicates that the conjoined address is the *residence*, not the place of business, of the individual. The same thing is also indicated in other cases, by "of" so and so; the Christian name being then used.

The names of closes, courts, wynds, &c. are all given in their respective places, whether the names of any persons residing in them are given or not; and their exact situations, as well as those of places of greater importance, are exhibited in a very simple manner, which, without any explanation will be easily understood at sight.

## APPENDIX.

### PROSPECTUS.

It is usual, in presenting the public with the first number of a new periodical publication, to say something by way of introduction and recommendation. In the present instance, there is perhaps but little necessity for either, unless it be because it is sometimes well to point to objects, which, however plain when our attention is once directed towards them, have been previously unobserved, and to remind people of that which they already know, but do not think of. The uses of a street and classified directory are, however, rather numerous than individually great, and to enumerate them would be tedious, and, in many instances, frivolous; but the largest bodies are composed of minute particles, and there can be no doubt that, at the year's end, every purchaser of this Directory will deem himself amply repaid its cost by the utility it will have been of to him.

The *first* part of this volume contains the names of the Nobility, Gentry, Clergy, Merchants, Traders, and principal inhabitants of Edinburgh, Leith, and Newhaven, arranged in fifty-five districts; each of which consists of a continuous range of streets, and the fifty-five comprise the whole of the three towns.

In the formation of these districts considerable pains have been taken. Having upon a former occasion subdivided the town in a similar manner for the purposes of the North British Advertiser, I had in the publication entitled "Circulation" of that paper, the work roughly done to my hand; but those districts, twenty-seven in number, were formed for a particular purpose, and it has been found that, with a view to more general utility, it was necessary to make a much more perfect division.

Accordingly, after making a general outline from the aforesaid book, with the assistance also of the best plans of Edinburgh and Leith, I first divided the town into fifty-five districts from actual survey, and then, having finished the work, I went over the whole of the town a *second* time to revise and correct it. And, not an inch of ground, as I believe, being missed either in Edinburgh, Leith, or Newhaven, I can confidently recommend these districts, or divisions, to those who may have use for them, as being very completely formed, though still perhaps capable of some improvement: the desideratum being that, book in hand, a man who continues to walk with it for his guide, may pass the door of every individual inhabitant of the three towns with as little walking as possible. And I guarantee that any one is now enabled to accomplish this, if not with as little walking as *possible*, certainly with *as little* as may be suitable for any business purpose whatever. Time, indeed, is lost only in passing from the end of one district to the beginning of another, which will be no loss wherever a man is employed to each district; and when otherwise, walking may be saved, by passing from the *end* of one district to the *end* of another, instead of to the *beginning* of it. See Districts two and three for example. This hint may be useful to the publishers of newspapers and others, who, for their especial purposes, may either reduce the number of the districts by putting two or three into one, or still farther multiply them by a more minute subdivision, as occasion may require.

The first arrangement will, it is believed, be of incredible utility to all persons who have occasion to distribute hand bills, circular letters, cards, &c. Presenting, as it does, at one view the names of the inhabitants of every street respectively, and that too in the *order* in which circulars may be most easily delivered, it will

enable tradesmen to distribute intimations through the whole town with the utmost facility, and in the most correct and systematic manner.

The *second* part consists of a reprint of the former one, under a totally different arrangement. Here individuals are classified into trades, professions, and occupations, titles, and designations. This division will be of great utility to persons connected with wholesale trades, and others who deal with particular classes of society. As a general medium of information, too, where any and every marketable commodity or service is to be obtained, it will prove to be of every day use to merchants, tradesmen, housekeepers, and private individuals of every class and denomination.

With respect to this part, it may be observed, that in consequence of the names not having been expressly written for insertion in a *classified* Directory, the classification is necessarily very incomplete, and capable with this year's example before the public, of great improvement in ensuing publications. With the very imperfect designations that were before me, I have this year done the best I could, but in many instances I must have erred, though in no one from carelessness, or the want of due endeavour to be correct.

The Appendix *this year*—it will *next year* contain also other matter—is devoted entirely to advertisements, which are a double advantage to the public. In themselves, they are both useful and ornamental; but another and great advantage is, that the charge made for their insertion enables me to offer for sale a *very cheap book*: it being almost superfluous to remark, that the average price of books of this size, and quantity of contents, is much higher than *four shillings*.

The advertisers themselves cannot fail to attain their object, as upwards of thirteen hundred copies of the book will pass immediately into the hands of the public, including a great proportion of the first people in Edinburgh.

Some half dozen of individuals have sent me letters of complaint of the *lateness* of this publication. I will now answer them collectively:—

It was distinctly stated in my prospectus—the *signing of which prospectus* constituted the giving of an order for a copy of the book—that it would “contain all the names in the Edinburgh and Leith Post Office Directory twice over, namely,” &c.

To implement this engagement, it was

impossible to *begin* the business of forming or preparing the copy of this book until the other was *finished* and *published*. The other Directory was published on Tuesday, the 5th of June. Since which day, with such assistance as the nature of the work admitted of—which, so far as preparing the copy is concerned, was very little—I have, from an alphabetical directory, formed the two foregoing classifications and arrangements, superintended the printing of the work, read and revised all the proofs, &c.

*July 9.* It is now precisely thirty-five days since this operation was begun, and, from the nature of the ease, it is evident that it could not be begun sooner. It is now finished, and in a day or two the book will be out.

And now let the said complainers set their wits to work, and calculate, going the nearest way about it, how long a time should be reasonably expended in the forementioned process; and, if the result be *less* than thirty-five days, on being informed thereof, I will, with all due humility, write them an humble apology each, for the unreasonable delay that will have been so shewn to have taken place. In the interim, I *deny* that there has been *any* delay, and affirm that, on the contrary, there has been *expedition*, as well in Thistle Lane, where the work has been printed—*well* printed too, don't you see?—as at No. 7, Henderson Row; and I do not believe that, with due regard to accuracy and proper arrangement, the thing could have been done more expeditiously by any of the said complainers, or by all of them put together.

I have one other subject to mention, and, in doing so, I shall endeavour to be as brief as may be convenient. Avoiding all mention of names, it is not unknown to the public, that I was some time since engaged in a very unpleasant controversy. The public have just this much to do with the matter,—as they *have been* informed by both parties of a dispute, there can be no impropriety in informing them also of its *arrangement*.

Certain matters have been placed in the hands of impartial and intelligent arbiters, to whom the parties-disputants, and their affairs, are more intimately known than to any other persons whatever, excepting only themselves. The said arbiters were empowered to cancel an existing contract of copartnery; to take a review of the whole circumstances of the case, past, present, and, as far as man can see into them, the future also; and to do justice, entire justice, and nothing but justice, between the parties, by drawing up a new contract of copartnery in such terms as they should see fit; which contract the parties-submitters

mutually agreed to sign. To enable them to do this the more effectually and completely, *each* of the parties-disputants furnished the arbiters with a *draft* copy of copartnery, containing his view of the rights of the case; and from these two documents, unlimited power being tendered to the arbiters, a contract was to be drawn up by them, to do which, than one of whom at least, no person was more competent as respects the law, as well as the justice of the case. A new contract of copartnery has in consequence been drawn up by the said arbiters; and as they were neither of them nominated, though entirely approved of by me, I have the more satisfaction in saying, *that with the award they have given I am perfectly satisfied.*

This sentence requires a single qualification. Man can do much, which no human power can undo or compensate; and an arbiter can only take in hand a case as it is, and make the best of it. This has been done.

One observation more upon this subject. The management of the *North British Advertiser* is now placed in the hands of my partner, for a brief term of years, with my entire consent and approbation, upon such terms and conditions as I consider to be just and reasonable; and he is also entitled by the said contract to carry on, if it shall be deemed advisable to do so, for the benefit of the firm, *the general business of a printer.* But, as a belief has, by some means or other, got into existence to the contrary, I deem it necessary to add, that I am still an equal partner in that business, to the extent of one-half of whatever advantage may accrue from it, the principal part of which is, however, assigned to others, chiefly my own friends, until losses, occasioned by no fault or imprudence of mine, shall be repaid.

The long period during which the aforesaid matters remained unsettled, prevented me from engaging in any work of this kind earlier, or indeed in any thing whatever; but as the approbation of the public of the plan of the present publication has been prompt and unequivocal, and finding it, as I hardly expected I should, when I first issued a prospectus of it, well worth following as a *principal* branch of employment, it is now respectfully announced, that in accordance with the original intention, this publication will be continued annually, and that it will re-appear not later than the fourteenth day of June, 1833, *with many and great improvements.*

And, moreover, finding it indispensably necessary to collect the names myself, without doing which, not only is an early publication after the term impracticable, but the proper

designation of the parties respectively *altogether unattainable*, I now *withdraw* the declaration I formerly made, of my intention of confining the work to a mere classification of trades and streets. On the contrary, life and health being spared, *I shall next year endeavour to bring out, without reference to any other interests than those of the public and my own, the best Directory of, and for Edinburgh, Leith, and Newhaven, which I can devise and execute, prior to the 14th day of June, 1833.* And I make this declaration, with the full intention of devoting the best part of the next twelve months to the endeavour to bring out a *good one.*

In making this statement, I am actuated by no spirit of opposition, or hostile feeling towards any one. The field is entirely open; for a good Directory, or, indeed, any thing beyond a mere alphabetical list of names, has never existed in this metropolis. In the endeavour to supply one, therefore, I take possession of open and unappropriated ground; and possession being nine points of the law, I call it my own, and will do the best I can to maintain it as such. I make this statement, with a knowledge of the fact, that, a few years since, some parties who were dissatisfied with the then existing Directory, endeavoured to mend matters — by bringing out a worse.

It is usual, in documents of this description, to tender acknowledgments for favours received, and to express hopes and expectations of others to come. I care not for customs of any kind, farther than as they are recommended by reason and utility; but I cannot conclude this paper, without stating that the purchase (orders obtained) of my Directory, almost upon the instant of its announcement, by upwards of a thousand persons, has added an additional proof, if any were wanting, that enterprize and speculative industry, whenever judiciously directed, will never fail to meet their reward in the city of Edinburgh. To those persons, amongst whom are several to whom I am indebted for numerous favours, I beg to tender my most grateful acknowledgments. But a still stronger claim upon my gratitude, exists in the constant and steady support, through fair weather and foul, stormy and tranquil, which has been bestowed on the *North British Advertiser.* I trust that it will long continue to be “*the medium*” of communication between buyer and seller for Scotland, whilst its more humble cousin, the Directory, hopes he “*won't intrude,*” by just popping but once a year, into the same path.

EDINBURGH, July 9, 1832.

TO CONSUMERS OF CANAL COAL,  
AND THE INHABITANTS OF EDINBURGH AND  
VICINITY GENERALLY.

**JOHNSTON and THOM**, grateful for the liberal share of Patronage they have so long experienced in the Coal Trade at the Canal, take this opportunity of respectfully informing their Customers and the Public, that they will continue to receive throughout the year extensive supplies of the Best Coal that can be procured, the different kinds of which they will always sell on the most moderate terms; and as their personal attention is exclusively devoted to this business, in all its departments, the Public may rely on being punctually and faithfully served.

As it is often inconvenient to send to the Office at the Canal, orders sent per post will be carefully attended to; and as there are now three deliveries in the course of the day, Families may have their Coal forwarded on the shortest notice.

MANUFACTORIES supplied with excellent Dross Coal, well adapted for Steam Engines, Furnaces, and Stoves, on the most reasonable terms.

*New Seams of Coal have just been opened up, the quality of which is giving great satisfaction.*

THE RUSSELL GRATE,

(INVENTED BY A SCIENTIFIC GENTLEMAN OF THAT  
NAME IN THIS CITY.)

J. SIBBALD AND SONS, PATENT.

**SIBBALD & SONS** have now the pleasure of presenting to the Public this beautiful Invention, of which they are the sole Proprietors, and for which they are now fully prepared to execute orders to any extent.

In the RUSSELL GRATE will be found to be united all those good qualities which have been individually the subjects of inventions and patents, from the time of Count Rumford to the present day.

Its superiority arises from the following circumstances:—

I. It gives out the heat of the fuel from a greater surface of the fire than any other grate.

II. All the heat given out by the fire is thrown into the room directly by reflection, and indirectly by heated air, instead of a great part of it passing up the chimney, as in common grates.

III. There is a saving of at least one-half in coals, so that this stove will speedily recover its original cost, which is not greater than that of an ordinary register stove of equal appearance.

IV. It is the best adapted for curing smoke of any stove in use.

J. S. & S. speak thus confidently of the RUSSELL GRATE, because its plan is the result of accurate principles and extensive experiments, and they are perfectly sure, that those who may honour them with orders for it will find that its merits have not been overstated.

In order to make room for a stock of the RUSSELL GRATES, J. S. & S. are selling their present stock of REGISTER STOVES, at reduced prices; and they have as usual a handsome collection of TEA URNS, and TEA TRAYS, in Papier Machée, Iron, &c.

64, South Bridge, opposite the College,  
July, 1832.

EDINBURGH AND DALKEITH RAILWAY.

**THE GREAT DEPOT**, which is entered from St Leonard's Street, now contains Sir John Hope's Newcraighall Coal, the Marquis of Lothian's Coal, the Arniston Coal, and the Edmonstone Jewel Coal, which is the same as the Sheriff-hall Jewel Coal; so that all the best kinds of Coal in the county, and in the country, are to be had there. The Coal of the Railway Depot is also carefully selected and freed from the coarser parts before leaving the Coaleries.

There are twelve Coal Merchants who hold offices from the Railway Company, and who have been selected with a due regard to respectability of character. They have, however, no coal yards attached to their offices, so that they have not the power, though they had the desire, to mix and adulterate the Coal.

The Company's Weighing Establishment consists of a Chief Weigher, an Assistant Weigher, and a Constable. The first signs all the Certificates of weight; his Certificate also attests that the Coal is of the kind that it is stated to be in the Coal Merchant's account or invoice. For, in the Railway Depot, the Coal is all taken, as it is ordered, directly from the Store Yards of the Coal Proprietors, whose interest it is that their Coal should be sold in a pure state, and maintain a good repute. Hence, it is easy for the Weighers to know one kind of Coal from another. The Assistant Weigher and the Constable watch the carters, to see that no coals are plundered in the narrow streets, and to see that quantities less than a ton are not sold for more than they weigh. Many of the inhabitants can already bear testimony to the efficiency of this preventive establishment, though few are willing to prosecute the dealers whose frauds have been exposed to them.

Consumers of Coals should attend to the following directions; they have been published in all the papers, yet very many, especially housekeepers and servants, are paying no attention to them:—

1st, Never receive a cart of Coals without the Weigher's certificate; his name is ROBERT GIBB, and if he should be changed, notice shall be given by advertisement.

2dly, Attend to the hour marked in the certificate, and if more than an hour after that has elapsed before the Coals are delivered, reject them, for the carter may have been disposing of a part of his load.

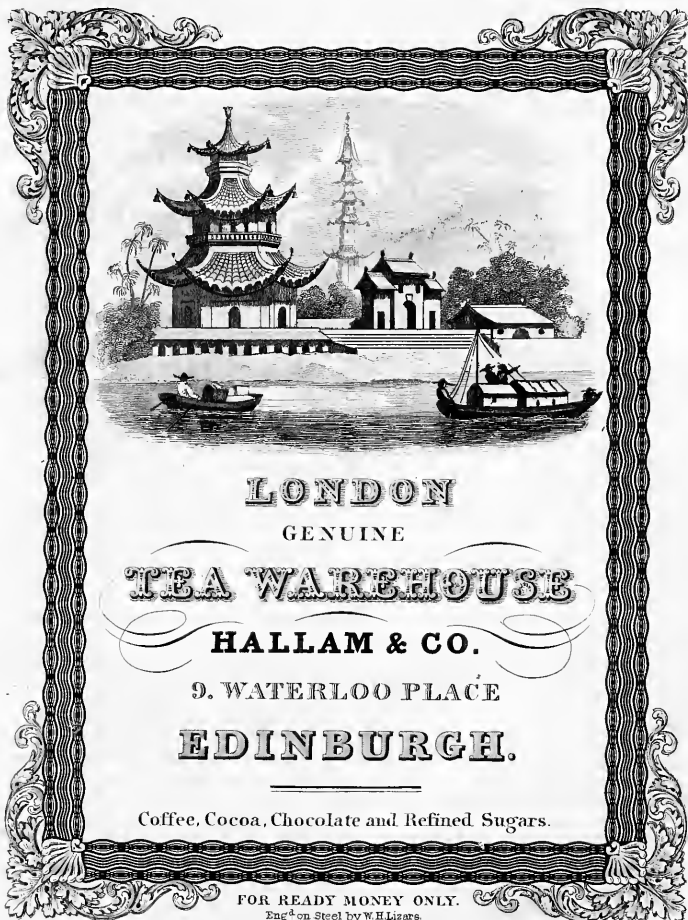

3dly, Always keep or destroy the Weigher's certificate, for if it remain with the carter, he may use it on the same day a second time to pass another cart of Coals of inferior weight or quality.

4thly, Any person receiving a Cart of Railway Coal may assure himself of its weight and quality, by calling at the Depot, and examining the entry in the Weigher's book.

Those who are not acquainted with any Coal Merchant of the Railway Depot, may address orders for Coal to the Railway Office, and they shall be handed to respectable agents for execution.

RAILWAY OFFICE, July, 1832.

HALLAM & COMPANY present their most respectful thanks to the Nobility, Gentry, and their Friends generally, for the very liberal patronage with which their establishment has been honoured, during the two years they have been in business at Waterloo Place, and beg to say, that the same superior TEAS will be sold, and the same strict attention paid to commands, as hitherto, and which have obtained them such distinguished preference.

This National Institution comprises the principal influence in Scotland among its numerous Proprietary, and affords unquestionable security to the Public by the magnitude of its capital. Established on a broad and solid basis, it has been enabled, by the unexampled support which it has received, to conduct its operations on a larger scale than its competitors in North Britain.

The capital stock of the Scottish Union Company cannot at any period be endangered, according to any calculable human hazard; and all persons insured with this Company may rest in absolute certainty, that, whenever a claim shall arise, ample means will be always available to satisfy it with promptitude; and that the principles by which this Institution is regulated, will provide resources for the liberal adjustment of every demand.

From a variety of causes, there is, of late years, a decided increase in the mean duration of life, in many parts of Europe,—an improvement, however, which it is extremely probable has been exaggerated. It has been the earnest endeavour of the Directors and Manager to ascertain how far the results of experience might be rendered beneficial to the Public, without giving any cause to suppose, that, in so doing, they were actuated by a dangerous spirit of competition. In adopting, for the basis of Life computations, the Mean Standard Table of the Decrement of Life in Great Britain, in 1824, as published in the Philosophical Transactions, their motives cannot be questioned. A fair estimate of the duration of life, in the country wherein the persons to be assured reside, is attained on scientific principles; and the public is justly entitled to all the benefit of the investigation.

It will be found, on examination, that the Directors have thought themselves justified in making some reduction in favour of the public from the basis thus adopted, in consideration of local circumstances.

Young and middle-aged persons are, accordingly, assured at *reduced rates*, by which they derive, upon the best and most equitable footing, an immediate and certain advantage.

Prudence dictates to every man, who is anxious to provide for his family, to effect his Insurance at the lowest premium, combined with perfect security. If he become an insurer in this Company, his object will be completely attained. The Directors, therefore, have every confidence that the reduced rates, and the superior security of the Scottish Union Company, will obtain a continuance of that distinguished support from the public which it has hitherto experienced.

TABLES OF RATES, and explanation of any description of Fire and Life Assurance, may be had at the Company's Office, No. 47, George Street, Edinburgh, or from any of the Company's agents in the country, a list of whom is published in the Edinburgh Almanack.

F. G. SMITH, *Secretary.*

## CIRCULATING LIBRARY OF MODERN PUBLICATIONS.

**M**ESSRS R. & J. CHAMBERS propose making some alterations in their system of lending out books. Impressed with a sense of the inequality and injustice which enter into the whole plan of Subscriptions, and which affect the Customer and Librarian alike, they abandon that part of their system, except in respect of Country Readers, where it is unavoidable; and, in order to meet the convenience of those who generally read by Subscription, they will henceforth lend out their books at a cheaper rate per night. By this means they expect to obtain—what they have always felt to be grievously wanted in the management of a Circulating Library—an *inducement* for their Customers to detain no book longer than is necessary, and to take only as many volumes at a time as they require. No individual will now be able to obtain more of the general advantages of the Library than what is exactly to be paid for, and no one will have to complain that he is deprived of his proper share by the avidity of others. The general and most beneficial result must be a far freer circulation of the books, and an increased reputation to the Library, not only for reduction of charges, but also for its promptitude in gratifying the particular necessities of Customers.

The following is the new scale of prices at which Books will be lent:—

For every Volume of a Book published before the year 1825, 1d. per night.

For every Volume of a Book published later than 1825, and more than one year old, duodecimo, 1½d. per night; octavos, 2d.

For every Volume of a New Book published at the rate of Half-a-guinea a Volume, 2d. a night during the first two months; after that a reduced rate, in proportion to the popularity of the work.

For every Volume of a New Work published at more than Half-a-guinea a Volume, 3d. a night during the first two months.

Quarto Volumes dearer, in proportion to the price of the work.

Country Subscriptions arranged by Special Contract.

↪ Duplicates of all the Modern Works for sale, at Half Price, *Cash*.

# G. & P. RITCHIE'S PATENT PRESS AND MACHINE MANUFACTORY, No. 56, NICOLSON STREET, EDINBURGH.

G. & P. R.'s PRESSES FOR LETTER PRINTING, LITHOGRAPHIC PRINTING, LETTER COPYING, ARMING, STAMPING, SEALING, &c.

These Presses possess every property desirable in such machines; and are made in all their variety of sizes.

*G. & P. R. warrant all Presses for Twelve Months.*

The following are a few of the testimonials G. & P. R. have received in favour of their Presses:—  
PRINTING PRESSES.

*1, Mound Place, Edinburgh, June 20, 1831.*

GENTLEMEN,—You have requested Mr Michael Anderson to give you his opinion of the merits of the Printing Presses which you made for him: I have therefore to state, for Mr Anderson, that these Presses have been worked in this house for upwards of twelve months, and that they have been found to realize the expectations previously formed of their capabilities. They are strong, without being clumsy in their appearance, expeditious, produce a powerful, clean impression on all parts of the sheet used at them, and fewer stoppages, from accidents, have occurred with them than any other description of Press which has come under my observation. I have, on every proper occasion, given it as my opinion, that your Press is, in every respect, highly deserving the notice of the trade, by which they would greatly benefit themselves, and confer a just reward on ingenuity. I am, Gentlemen, yours, &c.

*Messrs G. and P. Ritchie, Machine Manufacturers.*

BENJAMIN GIBSON.

*Caledonian Mercury Office, June 20, 1831.*

GENTLEMEN,—IN consequence of your request to know my opinion of the Printing Presses which you fitted up in this office, in March and April, 1830, I take the earliest opportunity of informing you, that they are of a kind that are highly recommendable for their durability, ease to the workmen, and, above all, for the clear, equal, and sharp impression which they give. They are also recommendable for the great ease and exactness with which the workmen can regulate the power, either for a light or heavy form, and the facility there is in taking them to pieces for cleaning. If any one wishes to see what they can do, he may inspect the new edition (the seventh,) of the Encyclopædia Britannica, a specimen of printing, from stereotype plates, equal, if not superior, to any thing of the kind. Gentlemen, yours, &c.

THOMAS ALLAN, Junior.

*Messrs G. & P. Ritchie, 56, Nicolson Street.*

## COPYING PRESSES.

*From WALTER HORSBURGH, Esq. W. S. Edinburgh.*

*Edinburgh, 28, Pitt Street, July 11, 1831.*

GENTLEMEN,—I can have no hesitation in giving the strongest recommendation of your Copying Press, for Letters, Accounts, &c. I have used one of them for several years, and have found it a most important saving, both of time and expense. The Letters are copied into a book (or on separate sheets of paper if wished) with the greatest expedition, and with the most perfect correctness. The Machine is simple in its construction, but is, at the same time, the best adapted to the purpose of any I have seen. The operation of copying is very easily performed, and, when with that are combined its rapidity and the absolute certainty of correctness in the copy, I consider it a very great advantage to all who keep copies of their letters, to use the Copying Press. In large offices it may save a clerk entirely. I have recommended your Press to a number of my friends, both professional and others, and they all approve most highly of it. I am, Gentlemen, yours, &c.

WALTER HORSBURGH.

*From Horsburgh and Marjoribanks, Esqrs. Accountants, Edinburgh.*

*22, India Street, Edinburgh, June 21, 1831.*

GENTLEMEN,—In reply to your note, requesting our opinion of your Copying Press, we beg to say, that we look upon it as the most simple, elegant, and perfect that we have yet seen. It was under this impression, and after using, for some time, a Machine by a different maker, that we ordered one from you, in 1828, of a larger size than you had previously been in the habit of making, and we have since that time continued to use it, not only for letters, but for accounts and states, with the most perfect success and satisfaction. The convenience and utility of the smaller size of your Press, are now becoming generally known; but, to the Accountant and Merchant, we consider the large Folio Machine quite invaluable. We are, Gentlemen, yours, &c.

ROBERT HORSBURGH.

GILBERT MARJORIBANKS.

*From Messrs Hutchison and Co. Merchants, Leith.*

*Leith, July 8, 1831.*

GENTLEMEN,—In reply to yours of the 7th instant, requesting the favour of us to state our opinion of the Quarto Copying Press we bought from you about eighteen months ago, we have much pleasure in having it in our power to reply favourably to your request. From our having made use of various Copying Presses, we have no hesitation in stating, that we consider the principle yours is upon to be the best we have yet seen, and a most useful time-saving article to any Merchant. We are, Gentlemen, yours, &c.

## JAMES COCHRANE &amp; CO.

GENERAL BRASS FOUNDERS, GREENSIDE LANE, EDINBURGH,

BEG to intimate, that they continue to manufacture, and to sell, both wholesale and retail, GAS FITTINGS of all kinds; also GAS METERS and BLOCK TIN TUBES; and that, in consequence of employing Steam Power, they are enabled to do their work in the best manner, and at moderate prices.

DWELLING HOUSES, &c. carefully fitted up in an expeditious and substantial manner. A variety of LUSTRES, PENDANTS, LANTERNS, BRACKETS, &c. always on hand.

J. C. & Co.'s GAS METERS,—which are now materially reduced in price,—they can particularly recommend, having devoted much attention to their improvement. The internal working parts are of brass and block tin, which are not acted on by the Gas, and the outer case is of cast iron, which protects the interior from injury. They beg also to refer to the annexed cut and description :

Let the Gas Meter be fixed perfectly level, where it will not be exposed to frost; then connect the service pipe to the coupling A, and the pipe for conveying the gas to the burners to the coupling B. Fill the Meter with water by the funnel C, till it begin to run at the syphon D. The water will then be at the proper level, and the Meter ready for use. A little water will require to be added occasionally, according to the temperature of the situation.

Each revolution of the first or highest wheel indicates one cubic foot of Gas consumed, the next 10 feet, the third 100, the fourth 1000, the fifth 10,000; and in large Meters, where the index consists of six wheels, the sixth indicates 100,000.

EDINBURGH, GREENSIDE LANE,  
July, 1832.

## NEW NATIONAL WORK.

DEDICATED, BY PERMISSION, TO HIS MOST GRACIOUS MAJESTY,  
**KING WILLIAM THE FOURTH.**

To be completed in 24 Parts at 2s. or 8 half volumes, bds. 6s. 6d. each, embellished  
 with Portraits,

**LIVES**

OF

**ILLUSTRIOUS AND DISTINGUISHED SCOTSMEN.**

FROM THE EARLIEST PERIOD TO THE PRESENT TIME,

*Arranged in Alphabetical Order, and forming a complete*

**SCOTTISH BIOGRAPHICAL DICTIONARY.**

BY ROBERT CHAMBERS,

AUTHOR OF THE "PICTURE OF SCOTLAND," "TRADITIONS OF EDINBURGH,"  
 "HISTORIES OF THE SCOTTISH REBELLIONS," &c.

THIS Work is designed to contain a complete and succinct account of the Lives of all Natives of Scotland who have attained eminence, whether in the Literary, Scientific, Religious, or Political World; each to be treated at a length suitable to his particular merit or fame, and the whole to be arranged, for reference, in an Alphabetical Order.

In order to make the SCOTTISH BIOGRAPHICAL DICTIONARY truly worthy of public favour, the Publishers have exerted themselves to secure, for the composition of its various sections, a varied array of talent and knowledge; each of the more important Lives being written by an individual whom they supposed best qualified, by his previous studies and cast of mind, to give it an appropriate merit. The greater part of the Work will be the composition, and the whole will be under the Literary Superintendence of Mr ROBERT CHAMBERS, "who," to quote the words of the Author of Waverley "has added so largely and agreeably to the stock of our popular antiquities."

A limited number of Copies will be printed on Royal Paper, with Proof Impressions of the Plates, 3s. 6d. per Part.

## REVIEWS.

"THIS Book, dedicated, by special permission, to the King, is most justly entitled, by its spirited publishers, a 'New National Work.' If these Biographies go on as they have commenced, and of this we entertain not the shadow of a doubt, they will form a most entertaining and useful compendium of the records of Scottish genius—a collection indispensable alike in the libraries of the educated classes, and by the *ingle neuks* of the peasantry—a work which will teach all hearts to beat high with a patriotic pride, at once enthusiastic and well founded, and nerve all minds to high enterprise. In short, we look confidently to its becoming in the new age what 'Wight Wallace' and the 'Scottish Worthies' were to our fathers."—*Edinburgh Literary Journal*.

"The first part of this truly national work is just published, and, from the highly creditable manner in which it is got up, augurs well for the success of those which are to follow. In accordance with the prevailing taste of the day, it is published in monthly parts; and we can assure those who wish to purchase, that, cheap as books are, this one exceeds the most of them."—*Dumfries Courier*.

"If ever Scotland could boast of an author whom she might call exclusively her own, it is Robert Chambers. The present work of Mr Chambers is by far the most serious and important that he has yet engaged with; and it is with singular pleasure, that, after a careful perusal, we give our conscientious opinion, that it is the one in which he has yet displayed the greatest share of ability and extent of information."—*Dumfries Journal*.

"The present is truly a national work, and ought to find a conspicuous place in the library of every son of Scotland, whose heart exults in the glory of his country, and the genius and virtues of his countrymen."—*Aberdeen Journal*.

"We would not be doing our duty to our readers did we not most warmly recommend these Lives of Illustrious and Distinguished Scotsmen to their notice."—*Ayr Advertiser*.

"We are glad to see a work of this description commenced; such a book was much wanted; and when completed will form one of the most valuable of our Scottish works. It is one which every Scotsman ought to possess, and which few, we are sure, who can afford to purchase it, will fail to procure."—*Glasgow Free Press*.

"A work of this description was much wanted, and, judging from the two numbers already published, it well deserves an extended popularity."—*Perthshire Courier*.

"This work is calculated for popularity by the nature of its contents; and from the specimens now before us, we feel ourselves entitled to say, that it amply deserves that popularity on account of its execution."—*Spectator*.

"We do not doubt that Mr Chambers' present effort will prove a 'National Work'—a work which while it commands an extensive circulation amongst the existing generation of Scotsmen, deserves to go down to posterity as a fitting record of the lives of our distinguished countrymen."—*Scottish Literary Gazette*.

"We trust that we shall at length have a Scottish Biographical Dictionary worthy of our country—worthy of those whose memories it is intended to perpetuate or snatch from oblivion."—*Aberdeen Magazine*.

## THE SOCIAL SYSTEM;

A TREATISE

ON

## THE PRINCIPLE OF EXCHANGE.

BY JOHN GRAY.

THE specific object of this work is to state, to prove, to exemplify, and to endeavour to call the attention of the public to the important fact, that it would be by no means difficult to place the commercial affairs of society upon such a footing, that production would become the uniform and never-failing cause of demand; or, in other words, that *to sell goods at a fair profit for money*, without any limit or restriction, as respects quantity and value, may be rendered at all times precisely as easy as it now is to *buy them with money*.

## CONTENTS OF THE WORK.
